**“WHEN I CAME HERE,
WHAT HAPPENED TO ME WAS I LEARNT I CAN ACTUALLY DAMN WELL DO
SOMETHING,
YOU ARE NOT AN INVALID, YOU ARE NOT USELESS, YOU ARE ONE OF US AND I
BELONG”**

“I think it is more important for us that it is peer run more than if it came out of somebody who was not, you’d know the experiences of going through what we’ve gone through because they can always sit back and say I know how you are feeling....”

“Cause with peer support, we’re not clinical. We are all on the same journey, and we can help”

“They really treat you as a person, and look at your life, and see what they can do to help you in your life...it’s not just one size fits all”

**“I can respect them,
I can relate to them and all they do you know,
I can obviously see that whatever they’re doing works “**
